

OUTOKUMPU ENVIRONMENT, HEALTH & SAFETY AND QUALITY (EHSQ) POLICY

We are committed to continuous improvement, our corporate responsibility, compliance with legislation in all areas we operate in, and the fulfilment of stakeholder requirements to which the company subscribes.

We communicate openly about our significant quality, safety, health, energy and environmental aspects, and require that our key suppliers and contractors perform in line with this policy. We share knowledge of best practices, technologies and product stewardship throughout the company. Outokumpu principles on Code of Conduct and Corporate Responsibility provide guidelines in our daily decisions and actions.

We base our management systems on the requirements of international Management System standards. We plan, set objectives, execute, sustain and report our business activities in line with those systems. This policy and the management system certificates are available at www.outokumpu.com.

Safety

We are firmly convinced that all injuries can be prevented, and safety takes priority over all other activities. Each one of us is responsible not only for our personal safety, but also for that of our colleagues and other stakeholders.

Health

Our continuous improvements in work environment and occupational health & safety, promotes the wellbeing of our employees and prevents occupational diseases.

Quality

The quality of our products, processes and services shall fulfill the expectations of our customers. We all contribute to this recognition with our knowledge, experience, efficiency and competence, together with our customer focus.

Environment & Energy efficiency

Our business is based on sustainability. Our products are fully recyclable, and recycled steel is our main raw material source; our products are valuable for customers and society. We reduce and prevent emissions and waste by proactively developing solutions in products, processes, energy and material efficiency to help reduce the impact on the environment.
